

RE: Cambridge - 473 Ellis Street, San Francisco, CA 94109

Dear Housing Program Applicant,

To comply with new federal regulations, all San Francisco shelters and low-income housing providers serving adults without children are transitioning to a centralized intake system. Under this system, a single entity—the San Francisco Continuum of Care Coordinated Assessment team—will screen and refer candidates to fill any public housing vacancies. This process will greatly simplify the process for applicants.

As a result, this housing provider is no longer maintaining a waitlist to fill future vacancies. Instead, it will fill vacancies using referrals from the San Francisco Continuum of Care Coordinated Assessment team.

If you would like to be considered for future housing vacancies, you must get a referral to be considered. Referrals can come from any San Francisco homeless service provider. A third party must verify the length of your homelessness. Do not contact the San Francisco Continuum of Care Coordinated Assessment team directly.

If you have any questions about this process, please attend the San Francisco Care Coordinated Assessment meeting:

Monday February 9th

1:00 pm

Born Auditorium

170 Otis St San Francisco, CA 94103
