Community Housing Partnership owns and manages operations at the below properties. Applications are not available for general distribution at our properties because CHP does not maintain waiting lists related to filling vacancies. When there is a vacancy, the CHP Compliance Team requests a referral by sending a description of the site-based eligibility criteria to the agencies listed below. The agency then works to select and refer an eligible, homeless household from their waitlist or access point after verifying compliance with CHP’s site-based eligibility. For more information on the referral process, please contact the referring agency listed below.
